Reference for The Cats Marketing Agency

We have collaborated with The Cats marketing agency since May 2024 on the Marina Royale Darłowo project, managed by POC Partners.

During this time, The Cats has supported us in running Google and Meta advertising campaigns, contributing to interest in our beachfront real estate development. Their team has experience in digital advertising and knowledge of the Polish real estate market. Additionally, they have provided website optimization recommendations and regular performance reports.

Based on our collaboration, we can recommend The Cats as a capable digital agency.

Aleksandra Twitchett
